Mr. Paul Tandler  
Vice President  
Cerro Copper Products Co.  
P.O. Box 681  
East St. Louis, IL 62202

Dear Paul:

I noticed on page 5 of Susan Franzetti's letter to you of December 22, 1988, "Revision to General Pretreatment Regulations," some question as to the average production rates used in Mr. Sutfin's letter of November 10, 1988.

This is to clarify that EPA used the production levels we recommended in my letter of September 29, 1988 to Mr. Sutfin.

Cordially,

Carl J. Schafer
